

June 2025

Adams County Wind Project Overview

Brittney Paxson

NextEra Energy Resources by the numbers

178 Operating
Wind Facilities

91 Operating
Solar Facilities

48 Operating
Energy Storage
Facilities

33 GW
total generating
capacity year end
2023

\$83B
total assets

20 Year+
history of renewable
execution

As of 12/31/23 Annual Report 2023 Form 10-K

NextEra Energy Resources in Colorado

11 Operating
Wind Energy Centers

4 Operating
Solar Energy Centers

2 Operating
Energy Storage
Systems

\$6.1 million
Paid Property Taxes in
2023

~ \$4.8 billion
Total Investment in the
State

\$11 million
Annual Land Payments

Adams County Wind Overview

200 MW of clean, renewable energy
Up to 71 turbines

Operational in 2028
Construction would begin in 2027

~18-mile transmission line
In both Arapahoe and Adams Counties

Millions of dollars
In local tax revenue

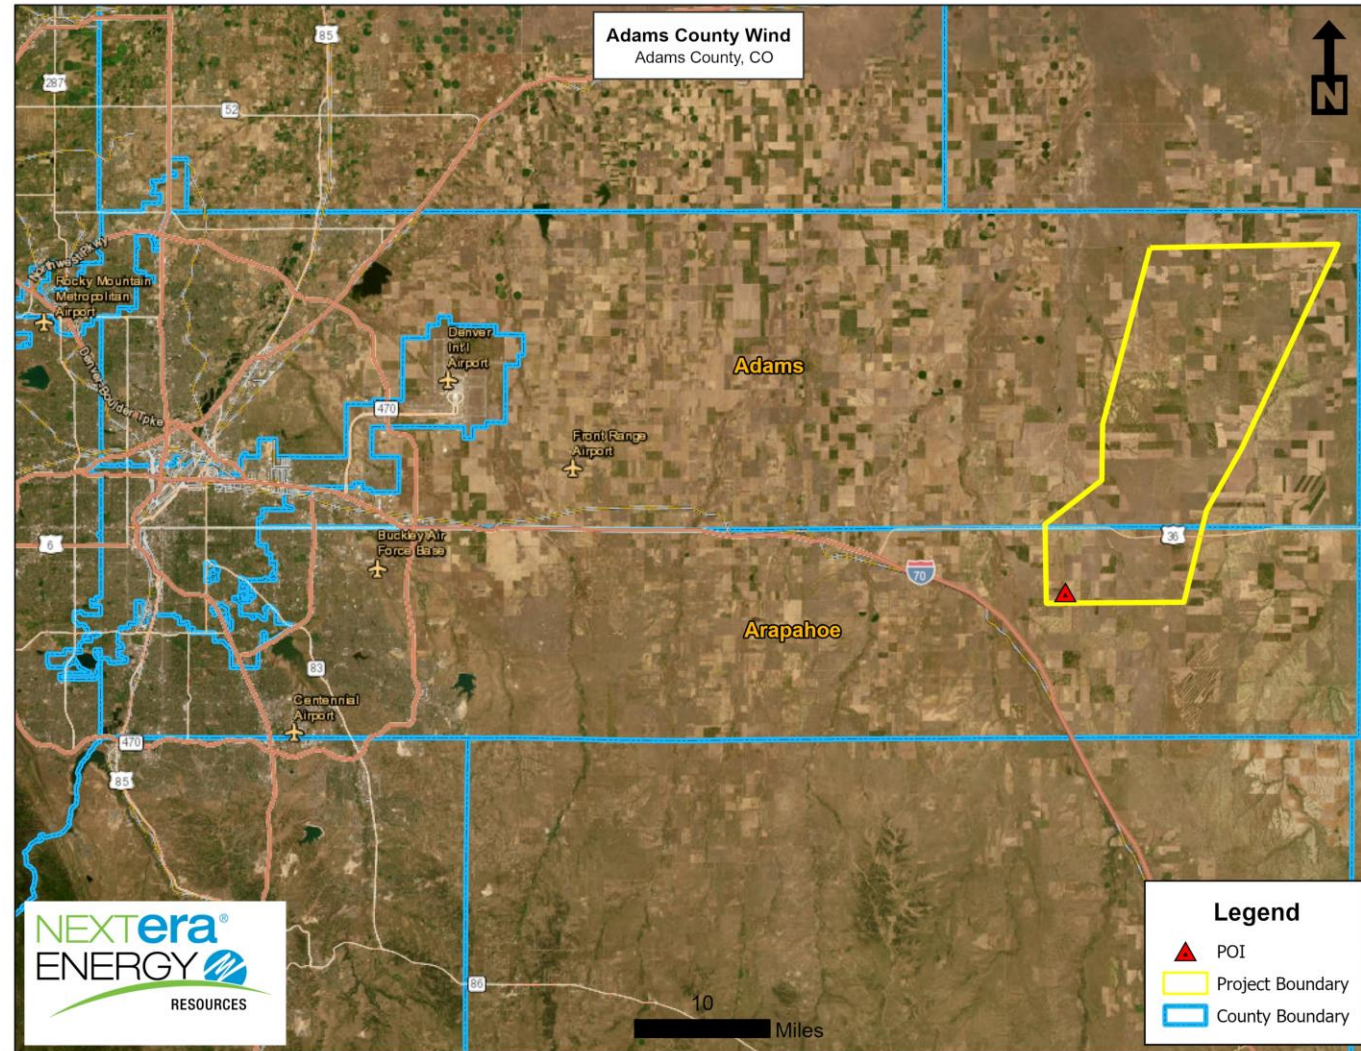

Approx. 250-350
Construction jobs and 5-6 full-time jobs to operate and maintain site

Up to \$42 million
In lease payments over the life of the project

Estimated over first 30 years of the project. All figures are estimated and subject to change.

Proposed Project Boundary

Design Suitability

- Wind Resource Analysis
- Interconnection Capacity
- Road and Highway Survey
- Construction Requirements
- FAA Safety Reviews

Decommissioning Analysis

- Forecast to Remove Equipment and Restore Area to Original Condition

Operations

- Project Routinely Monitored at 24/7 Command Center at HQ as well as on site at O&M facility

Environmental Commitment

We conduct numerous studies to ensure our projects are responsibly sited according to federal, state, and local agencies

Environmental Studies Include:

- Avian Use and Nest Surveys
- Local Species Reviews
- Bat Acoustic Monitoring
- Habitat Assessments
- Wetlands/Waters of the U.S. Evaluations
- Cultural Resource Evaluations
- Phase I Environmental Site Assessments

Stakeholder Outreach

The company does extensive outreach throughout the development process as well as through construction

- **Meet with:**
 - County Commissioners
 - School District Superintendents
 - Planning and Zoning/Development Staff
- **Tribal Coordination**
- **Economic Development Organizations**
- **Soil and Water Conservation Districts**
- **Landowner Dinners**

Community Engagement Efforts

NextEra Energy Resources is committed to being an involved partner in the communities where we develop and operate

Sponsorships with local groups

- Local Schools
- Youth Athletics
- YMCAs
- Chambers of Commerce
- Economic Development
- Boys and Girls Club
- Future Farmers of America
- Volunteer Fire Departments

Donations

- Food Pantries

Next Steps for Adams County Wind

**Continue to Develop
Project Site**

**Ongoing Community
Outreach**

**Work with Origination
Team on Customer
Strategy**
